

Thesis accepted by the faculty of the Department of Orthodontics and Oral Facial Genetics, Indiana University School of Dentistry, in partial fulfillment of the requirements for the degree of Master of Science in Dentistry.

James J. Baldwin

James C. Shanks

Kelton T. Stewart

James K. Hartsfield Jr.
Co-Chair

Katherine S. Kula
Chair of the Research Committee
Orthodontics Program Director

Date_____

ACKNOWLEDGEMENTS

I would like to thank Dr. James Hartsfield for all of his time, assistance, expertise and patience that allowed this project to be completed. I also want to thank Dr. Lorri Morford for her tremendous amount of help not only in the lab at Kentucky, but also on the thesis.

I would like to thank my research committee members, Dr. Katherine Kula, Dr. James Shanks, Dr. James Baldwin and Dr Kelton Stewart for their many helpful suggestions on my project.

I would like to thank Judi Rose for her help in preparing the manuscript, and more importantly her encouragement throughout my residency.

I would like to thank my wife Erica, for her unwavering support throughout my school career. I could not have accomplished this without her love and support. Finally, I would like to thank Cooper, Ainsley, Beckett and Grady for their love, and their willingness to give up time with dad so I could go to school.
