Effects of Selective Neuronal Deletions
on Levels, Uptake and Binding
of Putative Neurotransmitters
in the Cerebellum of the Rat
by
Brooks Harold Rohde

Submitted to the Faculty of the Graduate School in
Partial Fulfillment of the Requirements for
the Degree of Doctor of Philosophy in the
Department of Biochemistry
Indiana University

May 1980

This dissertation has been approved as partial fulfillment of the requirements for the degree of Doctor of Philosophy in the Department of Biochemistry, Indiana University, Indianapolis, Indiana.

Date 5/21/80

W. J. McBride, Ph.D.

Professor of Neurobiology and
Biochemistry

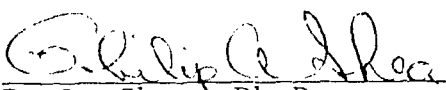

W. P. Bryan, Ph.D.

Associate Professor of Biochemistry
and Biophysics

J. A. Richter, Ph.D.

Associate Professor of Pharmacology
and Neurobiology

P. A. Shea, Ph.D.

Assistant Professor of Biochemistry
and Neurobiology

TABLE OF CONTENTS

	<u>Page</u>
ACKNOWLEDGMENT	ii
DEDICATION	iii
TABLES	viii
ILLUSTRATIONS	ix
CHAPTER	
I. INTRODUCTION	1
Localization of neurotransmitter in the brain . .	6
Neuroanatomy of the cerebellum	11
Neurophysiology of the cerebellum	22
Neurotransmitters and transmitter markers in the cerebellum	24
Monoamines.	24
Gamma-Aminobutyric acid (GABA).	25
Glutamate and Aspartate	34
Acetylcholine	38
Taurine	39
Rationale for the experimental approach.	44
X-Irradiation	44
3-Acetylpyridine.	43
Kainic Acid	52
II. METHODS.	57
Materials	57
Animals.	58

CHAPTER	<u>Page</u>
X-Irradiation experiments	58
X-Irradiation Procedure.	58
Taurine levels in cerebellar regions	59
Taurine levels in whole cerebellum	60
Taurine levels and taurine uptake in synapto- somal fractions.	61
Glutamate, GABA and aspartate uptake	64
3-Acetylpyridine experiments.	66
3-Acetylpyridine treatment procedure	66
Cerebellar regions	67
Cerebellar peduncles and medullary nuclei.	67
Microdissection procedure.	69
Cerebellar regions.	69
Cerebellar peduncles and medullary nuclei.	70
Uptake of amino acids.	71
Taurine levels in synaptosomal fractions	73
Hydrolysis of taurine samples.	74
Kainic Acid Experiments	77
Injection procedure for kainic acid.	77
Taurine assay.	78
Amino Acid Uptake.	78
Binding Assay	79
Statistical analysis.	88

CHAPTER	<u>Page</u>
III. RESULTS	89
X-Irradiation studies--taurine studies.	89
Whole cerebellum, cerebellar regions, and crude synaptosomal fraction	89
Synaptosomal uptake of taurine	92
Kainic Acid Experiments	92
Taurine levels in whole cerebellum	92
Synaptosomal uptake of taurine, glutamate and GABA	97
3-Acetylpyridine experiments.	97
Symptomatology	97
Taurine levels in cerebellar regions	99
Synaptosomal levels of taurine	101
Cerebellar peduncles and medullary nuclear regions.	101
Hydrolysis	104
Synaptosomal uptake of amino acids	107
X-Irradiation experiments--amino acid uptake.	109
Binding experiments	119
IV. DISCUSSION.	122
X-Irradiation experiments--taurine studies.	122
Kainic acid experiments	131
3-Acetylpyridine Experiments	133
Taurine levels in cerebellar regions	133
Synaptosomal levels of taurine	136

CHAPTER	<u>Page</u>
Cerebellar peduncles and medullary nuclear regions	137
Hydrolysis.	141
Synaptosomal uptake of amino acids	143
X-Irradiation experiments--amino acid uptake . . .	146
Binding experiments	152
V. CONCLUSIONS	161
VI. REFERENCES	164
Curriculum Vitae	xii
Publications	xiii
Abstracts.	xiv
