

How to Request and Obtain Feasibility Numbers and Data for Research through the Regenstrief Data Core and the Indiana CTSI Informatics and Data Analysis Core (CIDAC)

Sarah Hoover PMP, Regenstrief Institute Health Services Research; Joe Kesterson, MA, Regenstrief Institute Data Core; Faye Smith, MA, Regenstrief Institute Data Core; Brenda Hudson, MA, CCRP, Indiana CTSI Research Recruitment Office

Indiana Clinical and Translational Sciences Institute, Indiana University, Regenstrief Institute, Inc.

Indiana University-Purdue University Indianapolis

This poster presents a one-page, high-level summary view targeted at investigators and other individuals who have need to request numbers for research, explaining the process wherein requests can be made for feasibility and/or research data. Individuals seeking data for feasibility and/or research projects may utilize web based forms to make requests. Requests are tracked and managed by the Regenstrief Data Core. There are separate forms for Feasibility/Preliminary requests and Research Data requests. The purpose of this poster is to familiarize researchers with:

- Where to locate these forms on the Indiana CTSI website
- The steps needed to fill out and submit the appropriate request form
- The events that transpire between making the request and receiving data

In addition, a description of available services through CIDAC and the Regenstrief Data Core is provided, included but not limited to expertise in study planning and implementation, assistance with subject recruitment and management and prospective descriptive clinical and demographic data.
