

INDIANA LTSS-BASED RNS

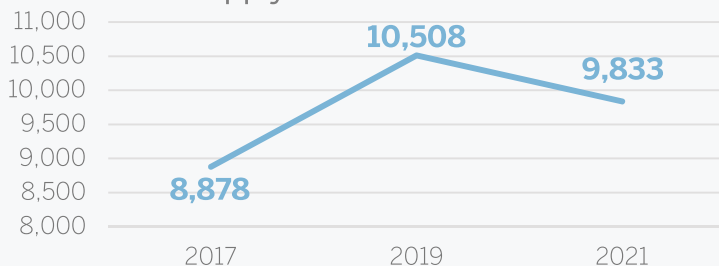

The Takeaway: Indiana's LTSS RN workforce has more racial diversity compared to the total Indiana RN Workforce. LTSS RNs experience greater uncertainty about their future employment plans in nursing, or plan to decrease hours in the field as is experienced in the total RN workforce. A small proportion of LTSS RNs hold a Bachelors in Nursing than the overall workforce.

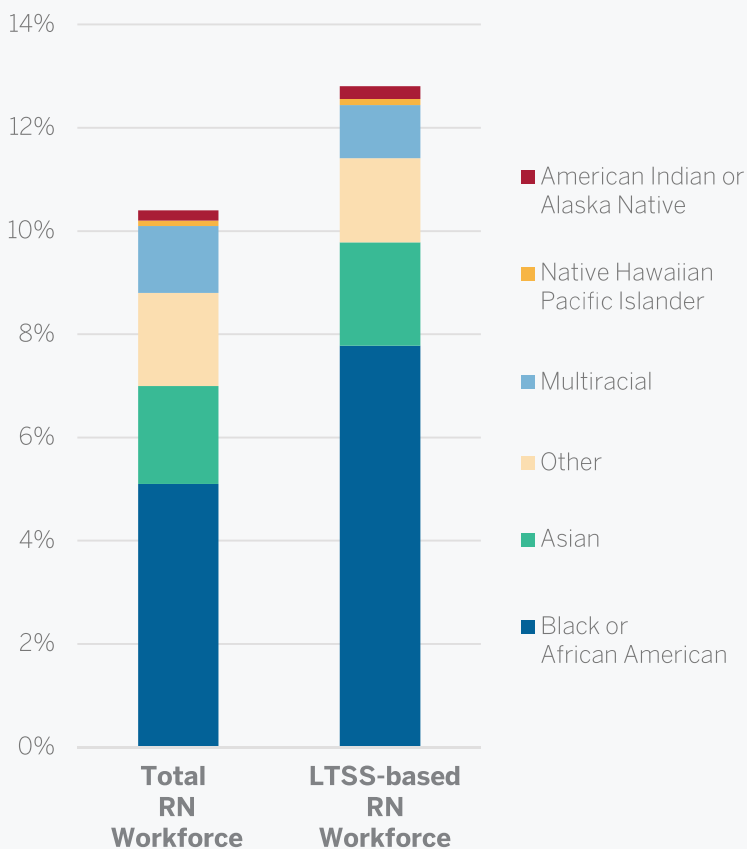

9,933 LTSS-based RNs

RNs reported their primary work setting as "Nursing Home", "Extended Care Facility", "Assisted Living", "Home Health", "Hospice", or "Assisted Living" in 2021, referred to on this page as "LTSS-based RNs"
